# 2012 Tipi Tour in Progress

*Seating 222 people, standing 5 stories tall, our beautiful, strong, inspiring tipi is dedicated to the creation of harmonious political energies, prayer, peace & paradise*

**W**e are a traveling creative vortex convening a single world leadership community capable of healing and evolving "the new world order".

We will guide institutional transformation by generating an online world consensus using best practices, radical transparency, conflict resolution, a new world calendar and comprehensive planning and organized prayer rituals from myriad cultures.

We draw from one gathering to enhance the next, always connecting communities and growing an entourage of change agents, healers, political strategists and friends.

We pray, love, learn, think, design, merge, support, research, teach, organize and inspire.

You may join, invest, support, follow and lead.

Our new tipi seating 222 to be dedicated by its makers August 15-17.

Our organization is a grounding opportunity for life that works for all. This is about a circle of people taking personal responsibility for getting our house in order for IDP 2012.

Please challenge our integrity, demand we be our best and relax into possibility. Find your place here. Do your part. Hold it all together. We are all One inside. May all beings be present for heaven on Earth. Our Gradaddy Tipi is dedicated to the children.

Sincerely,

Barry Tillman
